

# Criti-Kit 200 and Criti-Kit 200-AI EMERGENCY MEDICAL KIT

Designed for common medical emergencies.  
With Criti-Kit 200, your facility will be ready for a medical emergency.

# Criti-Kit 200 highlights

The Criti-Kit 200 emergency medical kit is equipped to keep your facility prepared for a medical emergency. It provides a basic set of medications and devices for triage, medication delivery, and resuscitation.

- Lightweight and portable
- Portable: 5.25" x 10" x 13"
- For basic emergency medical response
- No I.V. or ACLS medications

## Always up to date

With our Auto-Replenishment Service, your kit will always be up to date and ready to respond. The service uses smart automation to track the expiration dates of medications and devices and automatically replenishes them before expiration. You benefit from extended shelf life of medications, lowered costs, time savings, and gaining peace of mind.

## OnTraq™

OnTraq is an online account management tool that dynamically shows the status of your emergency medical kit and medications. It allows users to view each medication, expiration dates, lot numbers, national drug backorder status, and upcoming medication replenishment shipments. Rely on OnTraq's smart automation for dashboards, reports and task management.
